

Jubilee® Multiband is a self-assembly, endless banding or screw band system, which allows the user to cut the band to the desired length.

Used in areas such as heating, ventilation and air conditioning (HVAC), sign fixing, conduit and cable retention and lagging, this product is highly versatile.

The Jubilee® Multiband system comprises a worm drive steel strip that is cut to the length required, and screw housings which slide onto the band. The band can then be tightened onto pipes or ducts of almost any diameter. A number of screw and housing designs and two band widths are available to suit any application.

- Choose Multiband to make a clip to any size.
- Quick, versatile and convenient.
- Simply cut to length, add a housing, insert a screw and tighten to size.
- New to the market Jubilee Multiband in 316 stainless steel for highly corrosive environments.

Banding in dispensers of 10m

Part No.

MB1801

MB1901

- 11mm wide
- 10 metre roll
- 304 Stainless steel

Handy Pack

Part No.

- MB1806
- 11mm wide 10 metre roll

Corrosion Resistance: 1000 hours NSS Test

- 25 solid housings/screws
- 304 Stainless steel

Banding in dispensers of 30m

Part No.

MB1802

MB1902

- 11mm wide
- 30 metre roll
- 304 Stainless steel

Housings/screws for use with 11mm Multiband

Part No. MB1803

MB1903

- Solid housing
- 7mm A/F hexagonal screw
- Box of 25 sets
- 304 Stainless steel

Housings/Allen screws for use with 11mm Multiband

MB1804

- Solid housing
- 3/16" recess hexagonal key slot
- Box of 25 sets
- 304 Stainless steel

Pocket Pack

MB1807 Part No.

- 11mm wide
- 3 metre roll
- 8 solid housings/screws
- 304 Stainless Steel

Fastening: 7mm A/F screw

2000 hours NSS Test
